Key Skills

- React
- Next
- TypeScript
- JavaScript

Libraries & Tools

- React Query
- Redux / Redux Toolkit
- Zustand
- Context API
- Zod
- React Hook Form
- RESTful APIs
- Git
- Swagger
- Styled-components
- Tailwind
- NextUI (HeroUI)
- Material-UI
- Sass
- Agile / Scrum
- Azure

Work Experience

Front-end developer / **Sadra Afzar**

August , 2025 - Present

Contributed to the development and enhancement of a CRM / ERP web application in an agile startup environment. Focused on building scalable, maintainable front-end solutions through feature development, debugging, and performance optimization. Collaborated remotely with cross-functional teams to deliver high-quality results within tight timelines.

- Developed new front-end project independently from scratch, designing its architecture and implementing functionalities using React / TypeScript.Designed and implemented user-focused features, enhancing the interface with Material-UI (MUI) .
- Implemented and maintained multiple high-impact features (5+ modules) within the main CRM / ERP system.
- Built and optimized dynamic forms using React Hook Form and Zod to ensure strong validation and data integrity.
- Managed application state using Zustand and handled server-state synchronization with React Query for improved performance and efficiency.

Front-end developer / **Rymon**

February , 2025 - July , 2025   (6 months)

Contributed to the development and maintenance of a dynamic web application in an agile startup environment. Focused on delivering efficient, scalable solutions through debugging, feature development, and performance optimization. Collaborated remotely with a small but professional team to ensure high-quality results within tight timelines.

- Resolved critical issues and improved application stability using React, TypeScript, and Redux / Redux Toolkit.
- Designed and implemented user-focused features, enhancing the interface with Material-UI (MUI) and Sass.
- Participated in agile sprints, employing tools like Git and Azur to track progress and meet deadlines.

Front-end developer / Raya

February , 2024 - January , 2025   (1 year)

Transitioned to a role focused on React development, contributing to the creation of systems that optimize education processes and operations. Worked on solutions supporting employee management and student well-being, enhancing both user experience and operational efficiency. Collaborated with cross-functional teams and stakeholders to deliver impactful projects tailored to organizational needs.

- Developed responsive, modern interfaces using React, Tailwind CSS, and internal libraries, ensuring a seamless user experience.
- Designed and implemented systems for employee recruitment and student welfare, improving workflow efficiency.
- Partnered with stakeholders to define requirements and deliver solutions that met or exceeded expectations.

Front-end developer / Boardim

April , 2023 - January , 2024   (10 months)

Began as an intern and quickly advanced to Junior Frontend Developer within 8 months, contributing to the development of a collaborative application similar to Trello, enhanced with AI-powered features.

- Improved application functionality and user experience through innovative integrations using React and Material UI.
- Designed and implemented responsive UIs with Tailwind CSS, ensuring a seamless and modern user interface.
- Proficient in React, Material UI, and Tailwind CSS, ensuring timely project delivery.Collaborated with cross-functional teams to streamline workflows and deliver high-quality solutions on time.
